

Summary

Cybersecurity professional with over 3 years of experience in network engineering and security analysis, including internships focused on system monitoring and incident response. Proficient in tools like Splunk, QRadar, Nessus, and OpenVAS. Passionate about developing and managing secure systems in compliance with ISO 27001 standards. Currently pursuing a Master's in Information System Security, aiming to further specialize in risk assessments and security operations in line with **NIST** guidelines.

Skills

- **Languages and Networking:** Python, SQL, Bash, Networking Protocols (TCP/IP, DNS, HTTP), Shell Scripting
- **Cybersecurity & Monitoring Tools:** Splunk, QRadar, Nessus, OpenVAS, Wireshark, Cisco IOS, Juniper, Kali Linux, Metasploit
- **Identity and Access Management:** Azure AD, Okta, EDR, IDS/IPS, IAM (AWS)
- **Developer Tools:** Jira, Visual Studio, VS Code, PyCharm
- **Frameworks and Standards:** ISO 27001, **NIST**
- **Soft Skills:** Communication, Teamwork, Agile Mindset, Incident Management and Prioritization, Critical Thinking, Problem Solving

Experience

- **Network Engineer**
 - Orange Business, Mauritius
 - July 2020 – June 2023
 - **Configured** and migrated backbone networks and site infrastructure, ensuring seamless customer service delivery. Performed verification of routers, switches, and network nodes using Cisco IOS and Juniper, while **ensuring regulatory compliance** and managing customer acceptance tests.
- **Security Analyst Intern**
 - Rogers Capital, Mauritius
 - February 2022 – December 2022
 - Monitored and analyzed security events using **SIEM tools** (Splunk, QRadar), conducted **vulnerability assessments** and **risk assessments** using tools like Nessus and OpenVAS,

managed access controls including Okta and Azure AD. Collaborated in an Agile environment to enhance system security and ensure compliance with **ISO 27001** and **NIST** frameworks.

- **SOC Analyst Intern**

- Central Water Authority, Mauritius

- July 2021 – February 2022

- **Analyzed** network traffic and **identified security threats**, using tools like Splunk and Wireshark. Implemented **EDR solutions**, firewalls, and **IDS/IPS systems**, maintaining technical documentation, including incident response plans and SOC operational manuals that **reduced incident response times by 25%**.

Projects

- **Enterprise Security Monitoring and Incident Response System**

- Designed a security monitoring system integrating log data from various sources which detected threats proactively. Conducted **risk assessments** and vulnerability assessments, improving security compliance with **NIST** and ISO 27001.

- **Scalable Network Infrastructure Deployment and Optimization**

- **Automated** performance monitoring and fault detection using Python and Wireshark which **reduced network downtime by 20%** and enhanced service quality through proactive resolution.

Education

- **Concordia University**

- Montreal, QC

- Master of Science in Information System Security

- Jan 2024 – Present

- **Université des Mascareignes**

- Mauritius

- Bachelor of Science (Hons.) Software Engineering

Certifications

- Cisco Certified Network Associate (CCNA) – Cisco
- SOC Analyst Training with Hands-on to SIEM – Udemy
- Cybersecurity: Security Operations Center (SOC) Analyst – Udemy
- Cybersecurity Fundamentals - Become a Security Expert
