

Summary

Data Scientist with advanced degrees in Applied Computer Science and proven expertise in **Python, SQL, and machine learning technologies**. Known for deploying scalable models in **cloud environments** and leading data-driven projects from concept to execution. Adept at **statistical analysis, data mining**, and developing **AI-driven methodologies** that optimize business processes. Passionate about turning complex datasets into actionable insights to drive business success.

Skills

- **Programming Languages:** Python, Java, R, SQL (PostgreSQL)
- **Machine Learning/Deep Learning:** TensorFlow, PyTorch, Scikit-learn, NLP, LLMs
- **Data Analytics:** Predictive modeling, Feature engineering, Data wrangling, Business intelligence, Statistical analysis
- **Cloud Platforms:** AWS, GCP
- **Developer Tools:** Jira, DataBricks, VS Code, Visual Studio, PyCharm, IntelliJ
- **Data Visualization and BI Tools:** Tableau, Power BI, Google Analytics
- **Libraries:** Pandas, NumPy, Matplotlib

Experience

• Machine Learning Research Intern

Chitkara University

Feb 2023 – June 2023, Chandigarh, India

- Developed multiple **machine learning models** using supervised and unsupervised learning techniques and successfully deployed them using Flask and Streamlit.
- Enhanced data integrity through comprehensive data preprocessing, **feature engineering**, and the implementation of privacy-preserving methods.

• Business Analyst Intern

MiQ Digital

Jul 2022 – Feb 2023, Bangalore, India

- Collaborated on **data wrangling** and analytics strategies, improving decision-making and operational efficiencies in Retail, QSR, and Travel sectors.

- Designed and implemented custom automation solutions and integrated data using new APIs, enhancing business strategies and data utilization.

Projects

- **Fitty Bot – Fitness and Wellness Chatbot**

Jul 2024 – Aug 2024

- Employed **NLP** and large language models to create a chatbot in Python using Flask and SpaCy, providing personalized fitness advice based on user inputs.
- Implemented **data-driven decision logic** for dynamic and personalized workout and nutrition plans, significantly enhancing user engagement and satisfaction.

- **Blinkit Grocery Dashboard**

Sept 2024 – Sept 2024

- Designed and deployed a Power BI dashboard to analyze grocery sales and performance metrics, employing **feature engineering** to enable dynamic filtering and real-time data tracking.

Education

- **Master of Science in Applied Computer Science**

Concordia University

Jan 2024 – Present, Montreal, QC

- Relevant Coursework: Data Mining, Cloud Computing, Advanced Machine Learning

- **Bachelor of Engineering in Computer Science**

Chitkara University

Completed, Chandigarh, India

- Focus on Statistical Analysis, Predictive Modeling

Certifications

- **AWS Certified Machine Learning - Specialty**

- **Data Visualization with Python** – IBM
- **Business Analytics with Excel** – Simplilearn
- **SQL Programming** – HackerRank
- **Statistics 101** – IBM
- **Google Cloud Essentials** - Google
- **Professional Data Engineer on Google Cloud Platform**

This tailored resume aligns closely with the job description by emphasizing relevant skills, experiences, and certifications in machine learning and data science, ensuring a higher ATS match score.
