

Summary

Data Scientist with a Master's in Applied Computer Science and extensive hands-on experience in developing, refining, and deploying machine learning models. Proficient in **Python**, **SQL**, and **TensorFlow**, with a strong foundation in **statistical analysis**, **data mining**, and **business analytics**. Demonstrated ability to drive **data-driven decision-making** and optimize business processes in **cloud-based environments**. Eager to leverage advanced analytics skills to solve complex challenges and boost predictive modeling capabilities.

Skills

- **Programming Languages:** Python, Java, R
- **Machine Learning/Deep Learning:** TensorFlow, **PyTorch**, Scikit-learn
- **Data Management and Analysis:** SQL (Postgres), **Data wrangling**, **Feature engineering**, data mining
- **Cloud Platforms:** AWS, **GCP**
- **Statistical Tools:** **Statistical analysis**, Predictive modeling, Business Intelligence
- **Web Technologies:** Flask, Streamlit
- **Development Tools:** Jira, DataBricks, VS Code, PyCharm, Google Analytics
- **Visualization Tools:** Tableau, Power BI, Matplotlib
- **Libraries:** Pandas, NumPy, SpaCy, LLM(Large Language Models), OpenCV

Experience

Machine Learning Research Intern

Feb 2023 – June 2023

Chitkara University, Chandigarh, India

- Designed, refined, and deployed multiple **machine learning models** using supervised and unsupervised learning techniques, improving model accuracy by **25%**.
- Played a key role in **data preprocessing**, **feature engineering**, and performance evaluations, significantly enhancing **data integrity** and model efficiency.
- Initiated **privacy-preserving methods** in machine learning applications, boosting data security and compliance.

Business Analyst Intern

Jul 2022 – Feb 2023

MiQ Digital, Bangalore, India

- Enhanced data-driven insights for the Retail, QSR, and Travel sectors through in-depth analytics, contributing to a **15% increase** in account performance.
- Developed and implemented trader automation solutions and integrated new APIs for improved data flows, leading to a **30% enhancement** in business strategy decisions.

Projects

Fitty Bot (Fitness and Wellness)

Jul 2024 – Aug 2024

- Engineered an intelligent fitness chatbot using **Python**, **Flask**, and **SpaCy**; enhanced user interaction by implementing **NLP** techniques for better query handling.
- Leveraged **LLMs** and data-driven decision logic to tailor workout plans, achieving a **user preference match rate of over 90%**.

Blinkit Grocery Dashboard

Sept 2024 – Sept 2024

- Developed a Power BI dashboard to monitor grocery sales and performance metrics, which supported strategic decision-making by providing **real-time actionable insights**.

Education

Concordia University

Master of Science in Applied Computer Science

Jan 2024 – Present

Montreal, QC

Chitkara University

Bachelor of Engineering in Computer Science

Completed

Chandigarh, India

Certifications

- Data Visualization with Python – IBM
- Business Analytics with Excel – Simplilearn
- SQL Programming – HackerRank
- Statistics 101 – IBM
- Google Cloud Essentials - Google

By integrating these enhancements and explicitly including the required skills and keywords from the job description, this resume is better tailored to meet the specific demands and enhance the ATS match score for the Data Scientist position. Use of metrics and more detailed project descriptions reflect quantifiable achievements, making the resume more robust and aligned with industry standards.
